## Professional Summary

Final year **Computer Science Engineering** student and aspiring **MERN Stack Developer** with strong hands-on experience in building **responsive, scalable, and client-focused web applications**. Proficient in **React.js** and **MongoDB**, with working knowledge of **Node.js** and **Express.js**. Experienced in delivering **30+ real-world client projects**, collaborating with stakeholders, and transforming business requirements into **production-ready web solutions**.

## Key Skills

- **Programming Languages:** JavaScript, Java
- **Web Technologies:** HTML5, CSS3, JavaScript, React.js, Node.js, Express.js
- **Frontend Libraries:** Bootstrap, Tailwind CSS, React Hooks, Axios
- **Databases:** MongoDB, MySQL
- **Version Control:** Git, GitHub
- **Tools & Platforms:** VS Code, Figma, Canva, Firebase, Vercel, GoDaddy
- **CS Fundamentals:** OOP, DBMS, Data Structures
- **Soft Skills:** Team Collaboration, Problem Solving, Time Management, Adaptability

## Professional Experience

**Full Stack Developer Intern**  
**Keyan Technologies**

**Jun 2025 – Jul 2025**

- Developed responsive and interactive admin dashboard components using **React.js, Vite, and Material UI**.
- Collaborated with cross-functional teams following **professional front-end workflows and agile practices**.
- Delivered reusable, clean, and maintainable UI components aligned with production standards.
- Gained exposure to **enterprise-level development processes** and real-time task handling.

**Web Developer — Client-Based Projects**

**Jan 2023 – Sept 2025**

- Designed, developed, and delivered **30+ client websites** including portfolios, landing pages, and business sites.
- Built responsive and dynamic user interfaces using **React.js, HTML, CSS, and JavaScript**.
- Implemented **SEO optimization and performance enhancements** for improved visibility and load speed.
- Managed version control using Git and ensured timely delivery through effective client communication.

## Projects

**Teclanc.ai — AI-Driven Website Builder for Web Development Education - Ongoing**

- Designed and developed an **AI-assisted educational platform** that helps beginners learn web development through prompt-based website generation.
- Enabled AI-driven generation of **HTML, CSS, and JavaScript** while allowing users to **view, edit, and experiment with source code**.
- Implemented a **live responsive preview**, manual code editor, and downloadable source files to promote hands-on learning.
- Built secure **user authentication using JWT**, with prompt and project history stored in a **MySQL database**.
- Followed a **client-server architecture** using Node.js and REST APIs, focusing on education-first learning rather than copy-paste usage.
- Applied core CS concepts including **DBMS, computer networks, information security, software engineering, and algorithms**.

AI-Powered Web-Based Debugging and Learning Platform - Under Development

- Developed an **education-focused debugging platform** that helps students understand programming errors instead of providing direct solutions.
- Supported multiple programming languages including **Python, C, C++, Java, and JavaScript**.
- Implemented **secure, sandboxed code execution** using Docker containers with asynchronous job handling via **Redis queues**.
- Integrated an **AI Mentor** to provide step-by-step explanations, hints, and complexity analysis instead of corrected code.

Pneumonia Detection System

- Implemented medical image classification using **CNN, VGG19, XGBoost, and Random Forest**.
- Trained and evaluated models on chest X-ray datasets for accurate disease detection.

Admin Dashboard — iNetz Technologies

- Developed a **React + Vite** based admin dashboard using **Material UI**.
- Focused on modular components, responsive layouts, and scalable UI design.

Client Websites & Portfolios

- Delivered live production websites including **khansevents.com, safeandstudyacademy.in, mindgrooveacademy.in, strawberryartistry.in, vslcaterers.com**.
- Built **20+ personal portfolio websites** showcasing resumes, skills, and projects.

Certifications & Achievements

---

- Delivered **30+ successful client-based web development projects**.
- **1st Prize** — Paper Presentation, National Symposium.
- **Winner** — Code Contest, National Symposium.
- **Runner-up** — Cyber Hunt Competition.
- Class Topper Award for academic excellence.
- Maintained **100% attendance** across six consecutive semesters.
- Symposium Coordinator — led technical events and workshops.
- Java Programming & Python — LinkedIn Learning (2023).
- Mini Project Certification — IIT Workshop (3-Day Program).
- Full Stack Developer Bootcamp — GeeksForGeeks (2025).
- Introduction to MongoDB — Simplilearn (2025).
